

M-896

Chloride Process

M-896 is a rutile titanium dioxide pigment manufactured by the chloride process. It is designed for industrial coatings and also performs well in architectural coatings. With optimized alumina and silica coating, it provides superior weatherability for demanding exterior applications, combined with excellent optical and dispersion performance.

Applications

- Water-based and solvent-based industrial coatings
- Coil coatings
- Protective and marine coatings
- Automotive OEM and refinish coatings
- Exterior powder coatings
- Weather-resistant architectural coatings

Key Features

- Superior weather resistance
- Outstanding dispersibility
- High gloss
- Blue undertone
- Excellent opacity and tint strength

Typical Properties

Specification	Typical Value	Test Method
TiO ₂ content	92%	XRF
Inorganic coating	Alumina, Silica	-
Organic treatment	Present	-
Moisture when packed*	0.5% max	ISO 787-2
Bulk density (tamped)	1.2 g/cm ³	ISO 787-11
Oil absorption	18 g/100 g	ISO 787-5
pH	8.0	ISO 787-9
Specific gravity	4.0 g/cm ³	ISO 787-10
ISO 591-1 classification	R2	-
CAS number	13463-67-7	-
Color index	Pigment White 6	-

Storage & Packaging

Storage
Conditions
Packaging
Options
Container
Loading

Store in a cool, dry and well-ventilated place. Protect from moisture, direct sunlight and extreme temperatures.
25 kg bags; 500 kg bag FIBC; 1000 kg/bag FIBC.
25 kg/bag: 1.2 MT per pallet, 24 MT in one 20GP. 500/1000 kg FIBC: 20 MT with pallets in one 20GP.

Safety Notice

Use good industrial hygiene practice. Avoid dust generation. Please refer to the Safety Data Sheet for more handling information.

The data included in the typical properties is not a specification. The information in this data sheet is a general guide to the properties of the product described in it. Nothing in this data sheet is to be construed as a warranty, express or otherwise. In all cases, it is the responsibility of the user to determine the applicability of the information and recommendations and the suitability of the products described for its own particular purpose.
